

"The Coin Machines Merry-Go-Round" By Bill Gersh

PUBLIC RELATIONS

Of extreme pleasure to The Cash Box were the thoughts expressed and the suggestions proposed at the post-war planning conference called by the CMI in Chicago on April 26, 1944 regarding better public relations effort by all this industry. It was most noteworthy that when this idea of a public relations program was proposed that everyone present, and every leading manufacturer was represented, agreed to this most vital and outstanding need.

This, in itself, is a most definite sign of the new post-war era. This very important proposal at this manufacturers' conference, meeting with such unanimous and good approval, spearheads the way to the newer and better future which faces this entire industry. Old timers in this business will recall that for years progressive men have suggested that some sort of a public relations program be undertaken. These men explained time and time again that such a program would better acquaint the public with this industry and thereby cause this industry to be better understood by the public for its efforts in the amusement, merchandising and service fields. This would have saved hundreds of court cases, much bankruptcy and hardship and surely thousands upon thousands of dollars from lost markets alone. Yet each time such a proposal was made, even in private conversations, someone would growl, "Say, listen, the less people know about us the better off we're going to be". (The movie industry learned different, and when they did learn, drove to their present dominating position in the entertainment field.)

Results have proven the contrary to be true. Wherever attorneys have been forced to get up in courts and carefully, clearly and intelligently explain this industry and the nature of its efforts, greater tolerance and liberality has resulted. The public have because of such effort come to better understand a great many of the men in this business. They have learned, if even to their amazement, that coinmen are human beings just like themselves. That coinmen, too, are trying to raise decent, law abiding families, trying to build respected businesses, trying to put away a few dollars for their old age, and trying, in each and every possible way, to be an honor to their communities. This, therefore, has proven to the trade that when the public and its officials become better acquainted with the members of this industry and their true business efforts that greater progress is certain.

The marvelous work that this industry has accomplished during this tragic war period by its many donations to the canteens thruout the nation as well as its efforts in giving directly to camps, to the men on the high seas and to all on the many fronts of this global war, has won for it the greatest individual commendation in all of its history. This proves that the need for an outstanding public relations program is paramount. Such a program, collectively bringing forth this grand work to all the nation and its leaders, would prove of invaluable benefit to the future welfare of all concerned with this coin operated machines industry.

Now the manufacturers themselves have executed a complete about face, something that was needed for years, and enter into this new era with a most promising program, thru their newly appointed planning committee which they have just formed, that opens the greatly strengthened possibility to a new and better path to tomorrow's coin machines world.

The manufacturers plan to present to Washington's officials, and it is the hope of The Cash Box eventually to all the nation, just what this industry has done to benefit this nation's business, its commerce, its growth, its general development, its morale, its love of entertainment and efficiency and its continued prosperous welfare. This is the greatest effort that has as yet been undertaken in this industry to win for this trade much needed better understanding. Here are the leaders of this business clearing away old and musty superstitions, skepticism and poor business methods of the past with one mighty sweep and getting their teeth deep into a matter that has been the fondest and most cherished hope of every progressive man engaged in this industry.

This most definitely opens the promise to a great new era. This, with the cooperation of every coin machines man in the nation, can lead the way to the first great

"The Coin Machines Merry-Go-Round"

job that has ever been accomplished by this industry. Here is the beginning of the kind of effort that has always been necessary. Here is the preventative that will stop blue noses and hysterical publicity seeking politicians from gouging the hearts out of men in this industry.

This public relations proposal, made at this CMI meet, opens a tremendous vista for tomorrow. It is among the greatest good that can be done for this industry. It will clear the path to a great post-war growth. In the hands of the members of this CMI post-war planning committee is placed the flaming torch of a promise for public relations program that can win this industry its greatest victory.

COMBINES

There is a noticeable movement afoot thruout the country to create large combines of coin machines firms for the post-war era. The average firm in this industry, to assure continued leadership in its territory, seems to be of the belief that by arranging for a combination of leading firms, each an important unit in its own right, it can thereby prevent any encroachment upon its future operational activities and certainly present a strong and unusually tempting distribution organization to the manufacturers, at one and the same time. By controlling a large number of locations, such combines offer immediate placement of a large quantity of equipment. They thereby exercise the power to control a certain number of sales.

This leads to the problem of economical distribution which at this time is being so vigorously argued in a great many industries. Rises in materials and labor costs have caused intelligent merchandisers to seek the most economical means to merchandise their finished products so that costs will not rise any further in the scale. For example, at this very moment is a strong and heated argument in the electrical appliance industry as to whether it won't pay the manufacturers of appliances to go direct to the retailer, thereby eliminating the differential in the markup necessary because of the intervening distributor and jobber, and shave this off the already increased price of his merchandise. In view of the fact that large chain organizations have arisen, and these act as their own distributors in this field, as well as retailers, many of the electrical appliances manufacturers believe that it will pay them to arrange for such distributor-retailer set-ups.

Most retailers in the electrical appliances field, according to reports, would rather maintain their former status. They are, like the jobbers in this coin operated machines industry, satisfied with their present profit percentage and do not care to invest too heavily in any one line that will be presented immediately after production starts once again. At the same time they decry the direct chain sales, whereby the regular list price disappears and the profit potential becomes so much smaller, due to the fact that the chains have additional distributor's percentage to their advantage, and can cut to meet requirements.

There is also a move under way in this industry, in like contrast to the electrical appliances field, for the creation of a great many more jobber outlets than ever before existed. Tho the number of distributors is expected to remain more or less stationary, gauged at pre-war figures, the number of jobbers will increase because of the need for closer and better servicing of the operator. The average operator has learned, even tho by this time he is quite accomplished mechanically, that it is worth his while to pay a few dollars more to a jobber close to him, from whom he can obtain constant service for the equipment he purchases, than to buy for a few dollars less, many miles from his operating base, and receive no service at all when he needs such help. This is the one outstanding factor in the belief of a great many in this industry today as to why there will be a large increase in the number of jobbers thruout the nation after the war is over. The combines, by having offices in various parts of their territories, create this very same effect.

Whether this will have its effect on the distribution set-up will be noted later. But it does portend easier distribution for distributors who, if more and better jobber outlets come into being, will find sales so much easier for themselves. They will have less customers, not having to sell direct, and thereby be in a position to better control their distribution. The distributor realizes he cannot give efficient and complete service over a wide area. It is not practical to expect a distributor in a large city to rush mechanics to some small out-of-the-way town, two or three hundred miles away, to repair a machine or two for some operator. But a nearby jobber can do this efficiently as well as profitably. The average distributor would much rather work with the jobber than direct, at least this is true in the amusement division of the industry. The music and merchandising machines divisions have their own method of direct sales. But their products, not being subject to such constant change, nor in need of such hurried service, can be more easily adapted to more direct sales policies.

"The Coin Machines Merry-Go-Round"

The large combines being created thruout the country pose an entirely new problem. Here are the assets of large operations that offer instant placement for a heavy volume of new equipment, controlled thru agreement by one purchasing source. Will such combines be given the advantage of distributors' prices and be allowed to act in a distributing capacity, because of their locations control? What difference would there be if such large operating units act as distributors in certain territories for certain types of products? They, themselves, may operate one type of equipment and sell another. Yet it is also well to remember that they will be in position if they so desire, to economically and efficiently service the accounts they sell, because of their very size and the fine coverage of territory they exercise. Yet the trade, in this past survey conducted by The Cash Box, does not want the distributor to operate.

Many are also of the belief that these large combines are really being created as a protection, more than even a profit factor, for the post-war period. It will mean protecting locations already controlled, these men claim. It will also mean the use of a certain amount of power, when and if necessary, to obtain certain objectives. Whether or not this is the case only the future can tell. But definitely the result is now most apparent in the fact that a certain large direct sales feature will become a surety under this new type of set-up.

This cannot harm the future growth of the industry. It can, instead, help to a great extent, if these firms wholeheartedly join in the necessary effort to help open territories to greater appreciation and understanding of coin operated equipment, and continue to work for generally better business conditions for all.

It all boils itself down to the simple and basic fact that regardless of size, the equipment coinmen feature is most important - and this equipment is subject to the whims and fancies of a fickle public. The big combine can choose just as poorly as the smallest operator, and both fall by the wayside.

HONORABLE MENTION AWARD

To Vince Shay of Mills Industries, Inc., Chicago, Ill., for his fine efforts in behalf of the USO canteens, supplying them with equipment which has given many, many happy hours to service men. It is this sort of effort which helps build good will for all this industry.

THE PLEDGE

In the April 18, 1944 issue of The Cash Box there appeared a pledge which met with the instant and universal approval of all coinmen. So many of these pledges were immediately signed and returned to The Cash Box that these offices for a short time appeared to be deluged with them.

This pledge read as follows: "I pledge to give complete, true and fully specific information regarding the condition of all machines and supplies offered for sale, either on my premises or prior to shipment, and so crate my shipments that damage will be minimized or eliminated."

In a few days certified copies of this pledge, completely printed on beautiful bond stock, with the individual firm name especially imprinted on each certificate, will be going forth to all those who signed this pledge. It is the sincere hope of The Cash Box that each and every firm who will receive this certification of the pledge they signed will frame and prominently display it in their showrooms for all to see.

Those who haven't as yet signed this pledge, and there are a few as yet who did not enter into the communal spirit of this ideal, should instantly do so by referring back to their April 18, 1944 issue. Or, if they have lost this issue or mislaid it, simply repeat the pledge as it appears above on their letterhead, sign it, date it, and rush it to The Cash Box immediately. As long as The Cash Box can retain the original copy of this signed pledge in its files, they will certify this fact by sending the firm making the pledge a certificate for framing and display, with the firm name imprinted directly on the pledge itself.

Many have written in and suggested that those who do not sign this pledge be either forced to do so or openly publicized for all the trade to know. This is just what The Cash Box wishes to avoid. The Cash Box believes that if a man desires to do wrong, no pledge, nor any enforcement agency either, will prevent him from doing that wrong.

But, if he wholeheartedly and honestly wants to do what is right, and what will help all this industry to eliminate one of its worst evils developed during this war period, he will of his own accord and on his own solemn pledge, backed by his personal signature, sign this pledge.

"Talking Out Loud"

CONVERSION PLANS

In keeping with the appointment of the committee by CMI to plan for post-war reconversion comes the first official statement from Chas. E. Wilson of WPB that with the collapse of Germany 35% of America's productive capacity now devoted to war goods output will become available for peacetime purposes.

WPB spokesmen emphasized that only preliminary planning was possible now and until the invasion of Europe had been carried off successfully.

Mr. Wilson stated that, "We need three plans, not just a post-war plan." The first and most critical plan is for war production. The second is a method of carrying out essential civilian production coincidentally with war work. The third is a long-run post-war program for full production and full employment.

This 35% would mean a cut-back of nearly \$25,000,000,000 and would mean a reduced schedule of war production down to \$46,000,000,000 annually instead of the \$71,000,000,000 now in effect.

CREDIT POOL PLAN

A. L. M. Wiggins, president of the American Bankers Assn., has just given further details on the association's plan to establish a network of credit pools thruout the country to take care of the needs of post-war industry. This would come under the association's Post-War Small Business Commission.

"This program", Mr. Wiggins stated, "aims to provide the means for taking care of every possible sound credit need of business and agriculture, especially small business, in the post-war period, thru the organization of credit pools thruout the nation. These credit pools will set up by local banks along trade areas or other appropriate lines. By this means the banks of a given area could handle credits thru a pooling of resources where individual institutions might not be able to do so."

With so many coinmen determined to work on a credit basis for post-war purchasing this announcement by the American Bankers Assn. of a network of credit pools thruout the nation for small business assures these men that they can receive the necessary credit. This, too, opens a new path for the men in this industry who have already established bank credit by assuring them of post-war finance needs.

RATION TOKENS

Bus drivers are being plagued by the red ration tokens being inserted in coin boxes instead of the usual dimes. The American Transit Assn. has registered a complaint with OPA regarding this fact.

To be more specific, it's meat in the fare box, instead of cash.

Coinmen, too, are worried about the OPA tokens. More than 7,000 already reported found in vending machines.

JUKE BOX BRINGS HELP

One of our Philadelphia, Pa., subscribers sends us a clipping from his daily paper about how one of the Automatic Recording Machine Company's hostesses, Anna Roche, escaped attack by yelling into the telephone music system, "Please send us help!"

According to the clipping a party of taproom patrons a mile away heard the yell and sped to the company's offices. But in the meantime one of the other hostesses, Rita Smith, had escaped and brought police.

According to Miss Roche the assailant's voice resembled that of a man who had talked to her frequently over the telephone music system.

(We don't know whether this means anything to the FBI, but perhaps here, in the wired music systems of this industry, is another sure-fire crime buster method.)

APPLE VENDORS FOR COPS

One of our Des Moines, Ia., subscribers sends in a clipping from his local newspaper telling about a 17 year old boy who had been fined \$1 for overtime parking by Police Inspector Floyd Hartzer.

After paying the fine, the boy inserted two nickels into a nearby apple vending machine and took a couple of nice, big, red apples to Hartzer as a present.

(Used to be, when we were kids, that cops picked apples off fruit stands, polished 'em slowly and thoughtfully, bit into 'em, smiled and slowly strolled away.

TAKING THE PLEDGE

A great many letters have been received regarding the pledge which appeared in the April 18 issue of The Cash Box. Some of these have already been reproduced here. But these two are more or less typical of the instantaneous reaction of all the trade to this pledge.

Eddie Corrison of Palisade Specialties Co., Cliffside Pk., N. J., writes: "I thought I would take this opportunity of extending my personal congratulations for the fine job you are doing for the coin machines industry."

"I, as well as others, have had sorry experiences with equipment received in very bad condition, after being assured that the machines were in good mechanical shape. This, as you know, causes a lot of work and expense getting the machines back in shape for resale or location."

"I am enclosing my pledge and I hope that all the buyers and sellers in the coin machines trade will do likewise and mean it."

Al. A. Weidman of National Sales Co., Detroit, Mich., writes in part, "Enclosed find pledge that the 'House of Weidman' is more than pleased to sign and here is hoping that all the boys in The Cash Box sign this pledge and keep it, after they sign."

"There are several who are nothing but brokers selling something they never see and making all kinds of promises that they cannot keep because it is not in their power to do so. Shipment is made direct to the buyer and the condition of this merchandise for which top price is paid is really a crime."

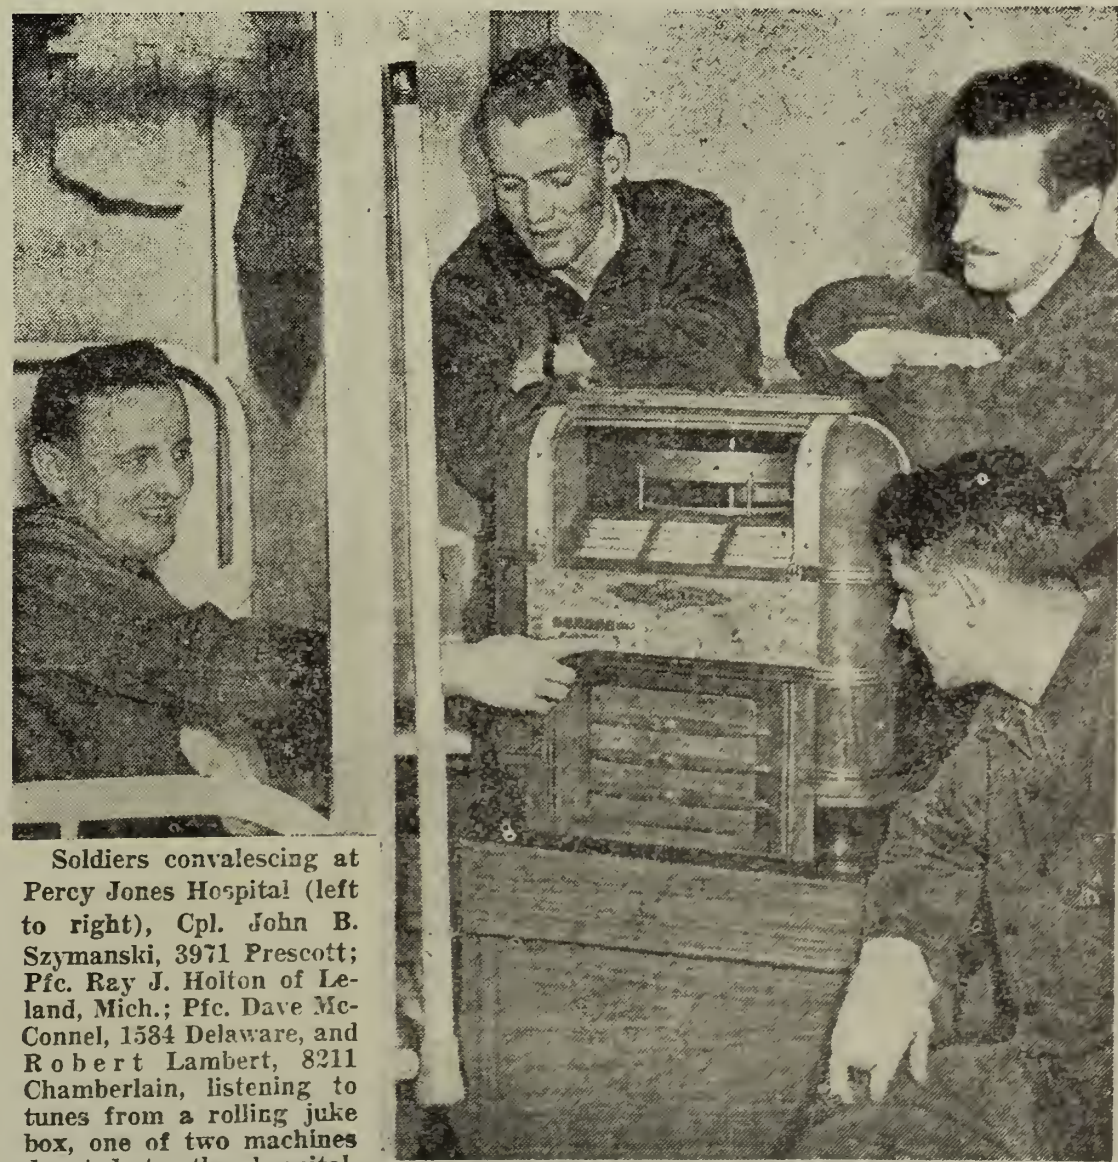

"No shops are maintained by these brokers to recondition equipment and the average operator is not in position to do this work."

"I just got stuck on 25 units purchased thru one of these brokers so I know what I am talking about."

"Keep up the good work and more power to The Cash Box in attempting to clean up an industry that is certainly in need of a cleaning in more ways than one."

MUSIC CHARMS AWAY PAIN OF WOUNDED VETS

One of our Michigan subscribers sent us this clipping which appeared in a Battle Creek paper telling about the two mobile counter model phonos which have been donated to the Percy Jones Hospital in that city and which are entertaining the wounded vets. The phonos are operated by the hospital Red Cross, according to the item, which also goes on to state, "If you have ever seen a healthy soldier on leave put nickels into one, just picture a vet who has lost a leg sweating out the convalescent time flat on his back. As one of these vets stated, 'That little old juke box just eats up the time and it's free'. The hospital reports that more records are needed. Here's an opportunity. We're sure that some of Michigan's coinmen will send in a batch of records to the Percy Jones Hospital, Battle Creek."

Soldiers convalescing at Percy Jones Hospital (left to right), Cpl. John B. Szymanski, 3971 Prescott; Pfc. Ray J. Holton of Leland, Mich.; Pfc. Dave McConnell, 1584 Delaware, and Robert Lambert, 8211 Chamberlain, listening to tunes from a rolling juke box, one of two machines donated to the hospital.

DISTRIBUTORS "E"

We have been in receipt of a great many letters commenting on this marvelous suggestion by Monarch Coin Machine Co. of Chicago. Many of these writers believed that they would be first to obtain the "E", which is given for 15 letters received from as many different customers (all letters dated on or after May 1, 1944) complimenting any jobbing or distributing firm on the excellence of the service and/or equipment given to these 15 different customers. We eagerly look forward to the first firm who will receive the "E" award.

Odd Coins

By Joe Orleck

A (1944) Copyrighted Feature of "The Cash Box", 381 Fourth Ave., New York

We've changed the deadline for this page, making it possible to include all the up-to-the-minute current items. If you have some news for us, drop us a note - this is YOUR page.

If you are interested in salesboards, a former salesboard manufacturer has four filling machines on hand he is anxious to dispose of. Here's a real buy....ED. RAVREBY, Owl Mint Machine Co., Boston, Mass. dropped into the office for a bull session, claiming that JACK and AL are capable of taking care of all the business back home. Ed wants us to point out to HIRSH de La VIEZ, Hirsh Coin Machine Co., Washington, D.C. that he was wrong.

KEN WILKINSON, United Amusement Co., Dallas, Tex. was another visitor to the big city....DAVID ROSEN, Philadelphia, Pa. moved to new large headquarters at 855 N. Broad St....DAVE LOWY, Dave Lowy & Co., New York City offers a variety of music and arcade equip....HYMIE ZORINSKY, H. Z. VENDING & SALES CO., Omaha, Nebr. offers consoles, pins, slots, 1-balls and arcade....TONY MANGANO, Howard Sales Co., Omaha, Nebr. runs a sale of slots, consoles, and 1-balls, all in this issue.

BOB FREEMAN, who has just taken over as assistant manager to DAN STEWART, Stewart Novelty Co., Salt Lake City, Utah runs a terrific sale of games, including slots, consoles, 1-balls, arcade equip. and music....MEYER MARCUS, The Markepp Co., Cleveland, O. shipping slots....GEORGE COLEMAN, Coleman Novelty Co., Rockford, Ill. wants slot parts....LESTER M. CREWS, Re-Sharp Needle Service, Fort Dodge, Ia. writes that his firm is giving perfect satisfaction".

WILLIE BLATT, Supreme Enterprises, Brooklyn, N.Y. continues to supply the market with his gun revamp "Shoot-Your-Way-To-Tokio"....GEORGE MC DADE, Tennessee Automatic Music Co., Knoxville, Tenn. wants peanut and cigarette machines....S. H. SHAFFER, S & C Amusement Co., New Orleans, La. offers arcade equip. and pins....JOHNNIE WILSON, Exposition Games Co., San Francisco, Calif. offers slot parts....HERB EVERSCHOR, Columbus, O. offers pins.

MORRIE GINSBURG, Atlas Novelty Co., Chicago, Ill. runs a sale of the most complete selection of parts for all equipment....FRANK DUNCOVICH, Columbia Novelty Co., Amsterdam, N.Y. selling music, consoles, pins, and checks....CHARLEY POLGAAR, G & P Amusement Co., Elizabeth, N.J. takes off time from his fishing activities to run a sale of pins and arcade equip....MAX and HARRY HURVICH, Birmingham Vending Co., Birmingham, Ala. offers music accessories and slots....CARL TRIPPE, Ideal Novelty Co., St. Louis, Mo. wants to buy pins and music.

ROY MC GINNIS, Roy McGinnis Co., Baltimore, Md., who continues to convert the 1-ball Whirlaway, now introduces another 1-ball conversion Dust Whirls....BEN RODINS, Marlin Equipment Co., Washington, D.C. offers pin ball glass....EDDIE CASSNOF, General Coin Machine Co., Philadelphia, Pa. selling arcade equip. and slots....NICK NEBEL, G.N. Vending Co., Columbus, O. offers slot parts and slots, and wants consoles....SANTO, Wheeling, W.Va. selling music and consoles....DAN BAUM, Ace Distributing Co., St. Louis, Mo. wants slots, consoles, music and 1-balls....AL BLENDOW, International Mutoscope Corp., Long Island City, N.Y. distributing General Products' "Klip-A-Nip" and "Tokyo Raider", and wants to buy arcade equip.

BEN and SI LAZAR, B. D. Lazar Co., Pittsburgh, Pa. offers consoles, arcade equip. and a selection of parts....JOE BECK, Mitchell Novelty Co., Milwaukee, Wisc. selling slots, 1-balls, slot parts, and Panorams....MORRIE WICZER, Harry Marcus Co., Chicago, Ill. writes there continues to be a large demand for their slot springs....N. B. KENNEDY, Kennedy Amusement Co., Wise, Va. offers a photomatic....MIKE MUNVES, New York City doing the usual spring arcade equip. selling job, and hardly has time to eat his meals.

MARVIN MC LARTY, McLarty Music Co., Lubbock, Tex. wants pins, and recommends a splendid idea, which will benefit the entire trade....M. T. DUFF, Winchester, Va. offers slots, consoles, music and pins....HARRY HAYES, Deluxe Sales Co., Blue Earth, Minn. selling boards....ED. GEORGE, Ed George Music Co., Akron, O. wants adaptors for music....CLIFF WILSON, Cliff Wilson Distributing Co., Lawton, Okla. offers arcade equip., and wants "peeps"....SAMMY STERN, Scott-Crosse Co., Philadelphia, Pa., who just returned from a trip to Chicago, reports he had a successful visit.

FRED MC CLELLAN, General Products Co., Sacramento, Calif. writes his "Klip-A-Nip" and "Tokyo Paider" change-overs going over in a big way....LARRY KANE, Revere, Mass. offers arcade equip....C.A. KETTERING, Automatic Music Co., Independence, Kansas wants pins and music....MAX ROTH, Roth Novelty Co., Wilkes-Barre, Pa. runs a sale of slots, consoles and music....BILL BURKE, East Coast Music Co., Chester, Pa. selling music consoles, pins, and slots....NAT RAKE, Rake Coin Machine Co., Philadelphia, Pa. offers pins, and wants arcade counter games.

MEYER PARKOFF, Atlantic Distributing Co., New York City carries a complete line of parts and supplies for music....LANCE MORTON, A. Benetti Novelty Co., Reno, Nevada wants \$1.00 slots....JOHNNY JONES, Jones Sales Co., Bristol, Va.-Tenn. wants all types of slots....FRED IVERSON, Eastern Sales Co., Rochester, N.Y. introduces his new conversion from Owl and calls it "Foreign Colors".

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress to ensure that the objectives are being met.

5. Finally, the fifth step is to evaluate the results of the project. This involves assessing the effectiveness of the plan and identifying any areas for improvement or further action.

1. The first part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into columns, with names in the first column and dates in the second column.

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is responsible for the study. The next step is to collect data. This is done by the investigator who is responsible for the study. The next step is to analyze the data. This is done by the investigator who is responsible for the study. The next step is to interpret the results. This is done by the investigator who is responsible for the study. The next step is to draw conclusions. This is done by the investigator who is responsible for the study. The next step is to report the findings. This is done by the investigator who is responsible for the study. The next step is to discuss the implications. This is done by the investigator who is responsible for the study. The next step is to write the report. This is done by the investigator who is responsible for the study. The next step is to submit the report. This is done by the investigator who is responsible for the study. The next step is to publish the report. This is done by the investigator who is responsible for the study. The next step is to disseminate the findings. This is done by the investigator who is responsible for the study. The next step is to evaluate the process. This is done by the investigator who is responsible for the study. The next step is to improve the process. This is done by the investigator who is responsible for the study. The next step is to repeat the process. This is done by the investigator who is responsible for the study. The next step is to continue the process. This is done by the investigator who is responsible for the study. The next step is to end the process. This is done by the investigator who is responsible for the study.

• *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in all photosynthetic organisms. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is found in the thylakoid membranes of chloroplasts in plants and algae, and in the plasma membrane of cyanobacteria.

Journal of Management Studies, 19(1), 67-80.

(Make it "Official"—Mention "The Cash Box" when answering ads.)

WE HAVE A PLAN

The first step in our plan is to identify the problem. We have identified the problem as a lack of communication between the different departments of the company. This has led to a number of errors and delays in the production process.

The second step in our plan is to develop a communication strategy. This strategy will involve regular meetings between the different departments, as well as the use of a central communication system.

The third step in our plan is to implement the communication strategy. This will involve training the staff in the new communication system, and ensuring that the meetings are held regularly. We believe that this plan will improve communication and reduce errors in the production process.

Conclusion

In conclusion, we believe that our plan will improve communication and reduce errors in the production process. We are confident that the staff will embrace the new communication system, and that the meetings will be held regularly. We will continue to monitor the progress of the plan, and make any necessary adjustments.

Yours faithfully,

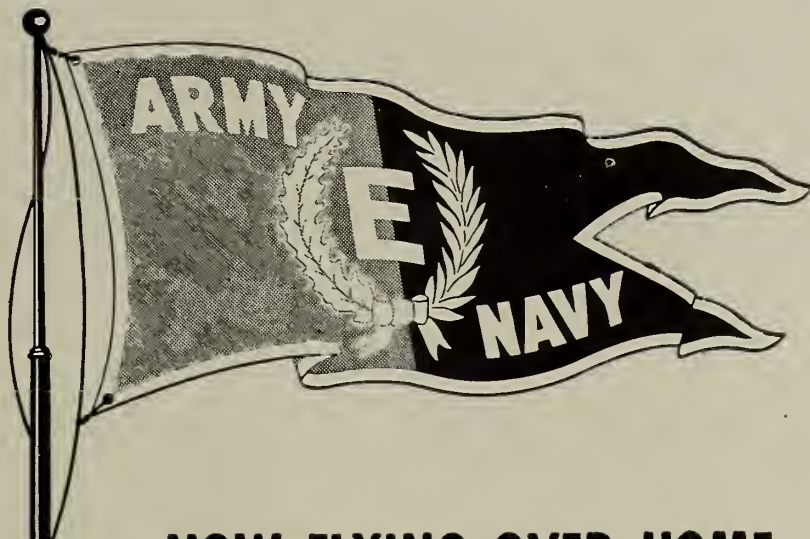

John Doe, Manager

NOW FLYING OVER HOME
OF FAMOUS *Bally*
GAMES AND VENDERS

Production at the "Bally" plant is one hundred per cent for Uncle Sam. Night and day, seven days a week, the "Bally" organization is building battle equipment for the Army and the Navy, proving that the skill developed in peace-time design and construction of coin-operated games and venders is a valuable asset to America in time of war.

Plans of the "Bally" organization call for quick production of new games and venders immediately after victory . . . and for exploitation of the marvelous new electronic principles developed by war-time technology. In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making equipment.

Lion Manufacturing Corporation, manufacturers of "Bolly" games and venders, distributed by Bolly Manufacturing Company, 2640 Belmont Avenue, Chicago, 18, Illinois.

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.

THE UNIVERSITY OF CHICAGO

...and the ...

... ..

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971).

[Faint handwritten notes at the bottom of the page]

... ..

... ..

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

1. What is the purpose of the study?

100-37278-10

1. The first step in the process of identifying a problem is to recognize that a problem exists. This involves gathering information about the situation and identifying the specific issue that needs to be addressed.

...the

[Faint handwritten notes at the bottom of the page]

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way we live and work. The second of these factors is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The process of migration is the movement of people from one part of the country to another. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of migration has led to the growth of the South and West and the decline of the Midwest. This has had a significant impact on the way we live and work. The third of these factors is the fact that the majority of the population of the United States is now living in the Northeast. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The process of migration is the movement of people from one part of the country to another. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of migration has led to the growth of the Northeast and the decline of the South and West. This has had a significant impact on the way we live and work.

"AMASKO"

THE NEW LIQUID RUBBER THAT ELIMINATES "SHORTS"

DID YOU EVER HAVE A "SHORT" ON YOUR FOUR BELLS OR THREE BELLS OR ANY OTHER CONSOLE OR PIN GAME?

DID A NICKEL EVER FALL OUT AND LAND ON TWO WIRES AND CAUSE A TUBE TO GO EMPTY, OR GIVE FREE PLAYS, OR BLOW A FUSE?

IF THIS HAS NEVER HAPPENED TO YOU --- BOY, YOU'RE REALLY LUCKY!!!! IF IT DID, AND YOU KNOW WHAT A HEADACHE THIS WAS - GET A CAN OF "AMASKO" TODAY!!!!

AMASKO is a liquid that you apply with a brush to all soldered connections...it hardens in a few minutes...and GOOD BYE "SHORTS"...if you want to remove it at any time...just pull it off with your fingers...it pulls off like thin rubber...IT IS RUBBER...PRE-WAR, TOO...it's transparent and you can use it for a hundred other things...a single can of "AMASKO" will short-proof 50 to 100 consoles, or what have you. SEND \$5.00 FOR A COMPLETE CAN TODAY...money back if dissatisfied in any way whatsoever...SAVE TIME...SAVE SERVICE CALLS...SAVE MONEY.....

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED
EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN
DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN
LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR
PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR
PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR
PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active
in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

LAST MINUTE NEWS FLASH

VOL. 5, NO. 35

MAY 23, 1944

SERIAL NUMBER 139

SPECIAL MFRS COMMITTEE IN WASH., D.C., MEETING WITH WPB MONDAY MORN MAY 15

A committee of manufacturers, selected at a special meeting of the CMI this past week, is now in Washington meeting with WPB (War Production Board). It is hoped that they are to act as an advisory committee for the purpose of making recommendations and supplying information to WPB regarding this industry. WPB usually selects their own industry advisory committees.

Tho this is not in any fashion whatsoever to be construed as a call from WPB to allocate materials for coin machines manufacture nor to discuss and arrange for any such manufacture, it is extremely heartening to this industry to hear that the manufacturers have been called to Washington and that they will have the opportunity of talking with WPB's officials.

It is a long time since the manufacturers of this industry were called down to Washington by WPB. The last times they presented themselves at WPB's offices it was to hear their production for this industry cut to 75%, then to 45%, to 25%, and finally to no coin machines production whatsoever.

An example of the telegram received by one of the manufacturers from WPB for this meeting is the following: "YOU ARE INVITED TO SERVE AS A MEMBER COIN OPERATED AMUSEMENT AND VENDING DEVICE INDUSTRY AND TO ATTEND MAY 15 AT 10 A. M., ROOM 4339, SPECIAL SECURITY BUILDING, WASHINGTON, D. C." The telegram was signed by J. C. Whithidge, Jr., WPB Industrial Advisory Committee.

This ties in perfectly with the meeting called by Dave Gottlieb, president of CMI at Groetchen's Restaurant in Chicago, April 26th. It definitely proves CMI's foresight to quickly formulate a planning committee, expressly for the purpose of meeting with WPB. Tho the original committee formed that evening is reported not to have as yet had the opportunity of completing plans discussed, there is no doubt that the groundwork for these plans, brought to the fore at this meet on April 26th, may tremendously help in this meeting with WPB.

WPB explains, "Industry Advisory Committees are formed for the purpose of supplying information and making recommendations to WPB. An Industry Advisory Committee is composed of representative companies in an industry, carefully selected to produce a balanced cross-section with respect to size, geographical location, products, trade association membership, or any other important factors."

A special meeting was hurriedly called by Dave Gottlieb, president of C.M.I., to select a committee that would be representative of the above principles of WPB, and which committee would meet with WPB.

The following are the members of the CMI committee that will meet with WPB's officials in Washington, Monday morning, May 15th:

Walter Tratsch, A.B.T. Manufacturing Corp., Chicago, Ill.
George Jenkins, Bally Manufacturing Co., Chicago, Ill.
James E. Broyles, The Rudolph Wurlitzer Co., North Tonawanda, N.Y.
W. E. Bolen, The Northwestern Corp., Morris, Ill.
Dennis E. Donahue, Mills Industries, Inc., Chicago, Ill.
Robert Z. Greene, Rowe Manufacturing Co., Belleville, N.J.
David Gottlieb, D. Gottlieb & Company, Chicago, Ill.

CMI announces that a special meet will be called, after their return from Washington, to discuss what took place at this WPB meeting. Until that CMI meet it is best for this industry to remain in status quo. The report of this committee at this special meet will be eagerly looked forward to.

THE UNIVERSITY OF CHICAGO

PHYSICS DEPARTMENT

REPORT OF THE PHYSICS DEPARTMENT
FOR THE YEAR 1954-1955

The Physics Department at the University of Chicago has been fortunate in the past few years to have had a number of distinguished visitors and to have been visited by a number of distinguished physicists.

The following is a list of the distinguished visitors and the distinguished physicists who have visited the department during the past few years.
